

**Company Name:** FoodCheck Limited  
**Release Date:** 3<sup>rd</sup> February 2010

## **Compass uses FoodCheck in Tesco stores.**

FoodCheck Limited, leading provider of independent audits, has been awarded a contract to audit the Compass operated restaurants within 190 Tesco stores, throughout the UK.

The contract with Compass means that FoodCheck's team of auditors will be visiting the restaurants nationwide and auditing against food safety and health & safety standards, beginning in February 2010.

Director of Health Safety and the Environment for Compass Group UK and Ireland, Chris Williams has worked with FoodCheck previously and is already aware of the benefits of using FoodChecks 'Audit Manager' system to get up-to-the minute, tailored reports.

He commented "I believe the experience that the FoodCheck team brings, will be of great benefit when auditing the restaurants. Health and safety, and food safety is top of the agenda in Compass restaurants".

Managing Director of FoodCheck, John Robinson added "The Compass contract is a great opportunity to demonstrate Auditor competency and the Audit Manager system, as FoodCheck expands further into the hospitality and restaurant sectors".

FoodCheck provides auditing and compliance solutions to multisite businesses, carrying out over 25,000 audits per annum for blue chip organisations, and is pleased to include the Compass restaurants in Tesco to its contract portfolio.
